FOREWORD	viii	PART V THE RESPIRATORY SYSTEM	231
PREFACE	ix	33 Therapy of asthma, chronic obstructive pulmonary disease (COPD) and other respiratory disorders	233
ACKNOWLEDGEMENTS	x	PART VI THE ALIMENTARY SYSTEM	245
PART I GENERAL PRINCIPLES	1	34 Alimentary system and liver	247
1 Introduction to therapeutics	3	35 Vitamins and trace elements	265
2 Mechanisms of drug action (pharmacodynamics)	6	PART VII FLUIDS AND ELECTROLYTES	271
3 Pharmacokinetics	11	36 Nephrological and related aspects	273
4 Drug absorption and routes of administration	17	PART VIII THE ENDOCRINE SYSTEM	283
5 Drug metabolism	24	37 Diabetes mellitus	285
6 Renal excretion of drugs	31	38 Thyroid	292
7 Effects of disease on drug disposition	34	39 Calcium metabolism	297
8 Therapeutic drug monitoring	41	40 Adrenal hormones	302
9 Drugs in pregnancy	45	41 Reproductive endocrinology	307
10 Drugs in infants and children	52	42 The pituitary hormones and related drugs	316
11 Drugs in the elderly	56	PART IX SELECTIVE TOXICITY	321
12 Adverse drug reactions	62	43 Antibacterial drugs	323
13 Drug interactions	71	44 Mycobacterial infections	334
14 Pharmacogenetics	79	45 Fungal and non-HIV viral infections	340
15 Introduction of new drugs and clinical trials	86	46 HIV and AIDS	351
16 Cell-based and recombinant DNA therapies	92	47 Malaria and other parasitic infections	361
17 Alternative medicines: herbals and nutraceuticals	97	48 Cancer chemotherapy	367
PART II THE NERVOUS SYSTEM	103	PART X HAEMATOLOGY	387
18 Hypnotics and anxiolytics	105	49 Anaemia and other haematological disorders	389
19 Schizophrenia and behavioural emergencies	110	PART XI IMMUNOPHARMACOLOGY	397
20 Mood disorders	116	50 Clinical immunopharmacology	399
21 Movement disorders and degenerative CNS disease	124	PART XII THE SKIN	409
22 Anti-epileptics	133	51 Drugs and the skin	411
23 Migraine	142	PART XIII THE EYE	421
24 Anaesthetics and muscle relaxants	145	52 Drugs and the eye	423
25 Analgesics and the control of pain	155	PART XIV CLINICAL TOXICOLOGY	431
PART III THE MUSCULOSKELETAL SYSTEM	165	53 Drugs and alcohol abuse	433
26 Anti-inflammatory drugs and the treatment of arthritis	167	54 Drug overdose and poisoning	444
PART IV THE CARDIOVASCULAR SYSTEM	175	INDEX	451
27 Prevention of atheroma: lowering plasma cholesterol and other approaches	177		
28 Hypertension	185		
29 Ischaemic heart disease	196		
30 Anticoagulants and antiplatelet drugs	204		
31 Heart failure	211		
32 Cardiac dysrhythmias	217
