<i>Preface</i>	vii
<i>Acknowledgements</i>	ix
<i>Authors of Case Studies</i>	x
SECTION I: AN INTRODUCTION TO THE HUMAN BODY	1
Chapter 1 Introduction to physiology and homeostasis	3
Chapter 2 Cell and tissue functions	22
Chapter 3 The skeleton	61
SECTION II: THE NEED FOR REGULATION	89
Chapter 4 Chemical reactions in cells: Fundamentals of metabolism	91
Chapter 5 Nutrients and nutrition	105
Chapter 6 Body fluids	121
SECTION III: SENSING CHANGE AND COORDINATING RESPONSES	137
Chapter 7 The senses	139
Chapter 8 The nervous system	162
Chapter 9 The endocrine system	204
SECTION IV: EFFECTORS OF HOMEOSTASIS	227
Chapter 10 The digestive system	229
Chapter 11 The cardiovascular system 1: Blood	269
Chapter 12 The cardiovascular system 2: Heart and circulation	304
Chapter 13 The lymphatic system, immunity and microbiology	360
Chapter 14 The respiratory system	397
Chapter 15 The kidneys and urinary tract	421
Chapter 16 The skin	446
Chapter 17 Skeletal muscle: Posture and movement	462
Chapter 18 The reproductive systems	485
SECTION V: INFLUENCES ON HOMEOSTASIS	519
Chapter 19 Genes in embryo development and ageing	521
Chapter 20 Pain	560
Chapter 21 Stress	587
Chapter 22 Circadian rhythms	609
SECTION VI: HEALTHCARE PRACTICE: A HOMEOSTATIC APPROACH	627
Introduction	629
Case 1. Introduction: Healthcare practitioners as external agents of homeostatic control	629
Case 2. The case of a woman with breast cancer	630
Case 3. The case of a woman with rheumatoid arthritis	632
Case 4. The case of a child with insulin-dependent diabetes – Type 1	634
Case 5. The case of a boy who is obese	636

Case 6.	The case of a 25-year-old man undergoing emergency surgery	639
Case 7.	The case of a woman with cataracts	641
Case 8.	The case of a woman with depression	644
Case 9.	The case of a woman with hypothyroidism	646
Case 10.	The case of an infant with hypertrophic pyloric stenosis	649
Case 11.	The case of a woman with deep vein thrombosis (DVT)	651
Case 12.	The case of a woman with myocardial infarction	654
Case 13.	The case of the young man with symptomatic HIV/AIDS	656
Case 14.	The case of a boy with asthma	659
Case 15.	The case of a man presenting for haemodialysis	661
Case 16.	The case of Cassius, a febrile toddler	664
Case 17.	The case of a person with impaired mobility following a stroke	666
Case 18.	The case of a man with benign prostatic hyperplasia (BPH)	669
Case 19.	The case of a family with Huntington's disease	671
Case 20.	The case of a 53-year-old man undergoing laparoscopic cholecystectomy	674
Case 21.	The cases of (a) a woman with occupational hyperstress, and (b) a man with occupational hypostress	676
Case 22.	The case of a man with learning disabilities leaving a long-stay hospital	678
APPENDICES		681
Appendix A	Units of measurements	683
Appendix B	Blood values and urinalysis	685
Appendix C	Common prefixes, suffixes and roots	689
Appendix D	Symbols and common clinical abbreviations	693
<i>Index</i>		<i>695</i>
